"Me two" says the senate to the  
House's battleship proposition.

The Jacobite row makes Texas one  
long-drawn-out howl these days.

Globe is the best mining city in the  
southwest. Tell your friends about it.

Globe never was on a firmer footing,  
nor had the brighter prospects than  
today.

The term "strawberry shortcake" no  
doubt was originally invented at a  
church fair.

A Missouri pig is equipped with an  
extra tail. Still, that's a very small  
matter.

A Mr. Meal is running for mayor of  
Harrisburg, Pa. If he is a square Meal  
we can see no objection to him.

Captain Hobson's gallant fight for  
those battleships entitles him to mem-  
bership in the tennis club, anyway.

Let's get busy early and arrange for  
that Fourth of July celebration—and  
make it three big days of pleasure.

"Love me little, love me about six  
months," is the way it appears to go  
among the big rich in New York now-  
adays.

If the president should ask for no  
ships next time, would congress order  
a few of those we have on hand blown  
up?

The Richmond Times-Dispatch thinks  
there will be no "hello girls" in  
heaven. We'd hate to carry around a  
grouch like that.

"It is now said that a man's body  
may be turned into a gold statue for  
the sum of \$300," says the Springfield  
Union. Who wants to be a gold statue?

"The price of pork chops is to be  
raised again," say a contemporary.  
Pretty soon it will be almost impos-  
sible to raise the price of pork chops at  
all.

In a "straw ballot" reported in the  
Atlanta Constitution, we note three  
Browns for Smith, and three Smiths for  
Brown. Is everybody in Georgia just  
determined to be contrary?

An Alabama negro, recently report-  
ed lynched, "in a very orderly man-  
ner," now comes to the front and de-  
nies bitterly that he ever was lynched.  
The question now is, Does politeness  
pay?

Oklahoma has prohibited the use of  
wooden Indians as cigar signs. That  
may be all right as far as it goes,  
but what this country wants is a law  
that will prohibit the use of cabbage,  
old rope, and excelsior as cigar fillers.

"If you don't want to practice what  
you preach, don't preach," advises the  
St. Louis Globe-Democrat. Like most  
preachers, however, this one doubtless  
promulgated that sage advice with a  
mental reservation as to its own preach-  
ing.

To celebrate or not to celebrate;  
that's the question that should be an-  
swered at a meeting to be called at  
once. The answer will be celebrate, and  
the quicker the committees get to work  
the bigger and more successful will be  
the celebration.

A member of Gotham's "smart set"  
is said to have had thirty different hats  
in as many days. The majority of  
women in this land are unable to have  
thirty different hats in thirty years,  
without doing a good deal of retrimming  
and remodeling.

We regret to learn that a Savannah  
river steamer is hung up on a sand bar.  
As the boat is on the South Carolina  
side of the river, however, we suppose  
it is safe from arrest for having vio-  
lated those somewhat strenuous Geor-  
gia prohibition laws.

## PLANS FOR A MILITARY INSTI- TUTE COMPLETE

**WORK ON BUILDINGS TO HOUSE  
LARGEST SCHOOL OF ITS KIND  
IN THE WEST, HAS ACTUALLY  
BEGUN.**

EL PASO, April 27.—The plans for  
El Paso's new military institute, the  
largest of its kind in the west, are  
now completed and work has actually  
begun. The buildings, exclusive of  
equipment, are to cost approximately  
\$65,000. The location of the college  
is in the neighborhood of Fort Bliss,  
about one-half mile beyond Military  
Heights addition, and is to occupy  
ground covering twenty-five or thirty  
acres. The El Paso chamber of com-  
merce announces that the college will  
be ready for the reception of students  
in the fall of 1908. The superintendent  
is Captain Thomas A. Davis, former  
commander of Company M, 6th U. S. V.  
infantry, serving at Porto Rico.

Another large undertaking shortly  
to be commenced is the new home of  
the El Paso Country Club, to be built  
between Military Heights addition and  
the military college. The country club  
has just acquired several blocks of  
ground and is to erect thereon a mag-  
nificent retreat for El Paso's business  
and professional men.

A woman has bequeathed a handsome  
lot of jewels to her daughter, with the  
stipulation that they are not to be worn  
until she is twenty-one years of age.  
Now what has that woman against her  
daughter that she should doom her to  
so cruel a fate?

A Pennsylvania man worked on his  
old family clock for six months in a  
vain effort to make it go, but go it  
wouldn't. Then he let it alone for thirty  
days, and it started running at a  
fine clip and has been going ever since.  
Doubtless you have noticed a few people  
and a few mules very much like that  
clock.

The business men have all agreed that  
Globe should celebrate the Fourth of  
July this year. Now, if the chamber of  
commerce will be called in special  
Fourth of July session, the ball will be  
started rolling. Globe is prepared to  
get up the greatest celebration in her  
history and the people of the valley  
towns are anxious to come to the me-  
tropolis to do their celebrating.

**Object to Strong Medicines**  
Many people object to taking the  
strong medicines usually prescribed by  
physicians for rheumatism. There is  
no need of internal treatment in any  
case of muscular or chronic rheuma-  
tism, and more than nine out of every  
ten cases of the disease are of one or  
the other of these varieties. When  
there is no fever and little (if any)  
swelling, you may know that it is only  
necessary to apply Chamberlain's Lin-  
iment freely to get quick relief. Try  
it. You are certain to be pleased with  
the quick relief which it affords. Price  
25 cents; large size, 50 cents. For sale  
by All Druggists.

**CLASSES IN DANCING.**  
Bijon theater now open for pupils.  
Ball room and step dancing both \$1  
per lesson. Other dancers welcome.  
Ladies free to classes 8 to 10 p. m.

Go to the Indian Hot Springs. If  
sick, get well. If well, get rest and  
pleasure.

Try the Palace ice cream and be sat-  
isfied. It is the best. Chas. Asche.

**Good Judgment**  
Is the essential characteristic of men  
and women. Invaluable to good busi-  
ness men and necessary to house wives.  
A woman shows good judgment when  
she buys White's Cream Vermifuge for  
her baby. The best worm medicine  
ever offered to mothers. Many indeed  
are the sensible mothers, who write  
expressing their gratitude for the good  
health of their children, which they  
owe to the use of White's Cream Ver-  
mifuge. Sold by Palace Pharmacy.

**Well Known Optician Here.**  
Dr. L. M. Swigert of the well known  
firm of Swigert Bros. of Phoenix and  
Denver, will be here Monday, Tuesday  
and Wednesday of next week. If there  
is anything the matter with your eyes  
or in need of glasses of any descrip-  
tion, see him at once at the Dominion  
hotel.

### TO THINK AWAY DISEASE

**Washington Man Believes We Ought to  
Live a Century**

"The human body is full of electric-  
ity and the brain is the switchboard,"  
declared Mr. Andrew McConnell of  
Washington in a lecture at the home of  
Mrs. Randolph Owens, 1810 North Cal-  
vert street.

"My assertion," he continued, "is  
that any man who is not crazy can cure  
himself of any disease, and there is no  
reason why a man cannot live to see  
a hundred years."

"I find that by generating more elec-  
tricity in the body more vital force is  
produced. Old age is simply a decrease  
of vital force, but the old can learn to  
generate more electricity. I have found  
this to be true of an old man who was  
suffering from paralysis."

"Only two elements have baffled medi-  
cine—the hardening of the arteries and  
the hardening of the bones. These I am  
confident can be overcome."

"Mental activity helps to circulate  
the electricity through the body and in-  
creases the circulation."

"Men like John D. Rockefeller should  
give you every encouragement, should  
they not?" asked an auditor.

"Yes," he said, "and they do. I  
have already enlisted several million-  
aires in my ranks."

"Then would you hold that Mr. Rock-  
efeller and his assistants in broken  
health can work twelve hours, eat a  
25-cent meal and then gallop after a  
moving car?"

"Not quite that strong," he said  
smilingly. "But they can tax their  
brains as much as they like as long as  
they give a corresponding amount of  
time to the other organs."

"What is this wonderful action which  
you ascribe to the mental organs?" he  
was asked.

"Thinking is the process of circulat-  
ing more electricity through the brain,  
and if you can give that an extra im-  
petus you are on the right road to long-  
evity."

Mr. McConnell is a young man. He  
said he was affected with nervous pro-  
stration and a weak heart for years. He  
pondered over the subject after he had  
failed to get relief from physicians, and  
finally cured himself.
